Practice Areas

Hongxian Shan is an of Counsel at the Shanghai office of Global Law Office. His main practice areas include capital markets, mergers and acquisitions (M&A), corporate restructuring, equity investments and financing, and Company's routine legal services.

In the field of capital markets, as the on-site lead attorney, Hongxian Shan has deeply participated in the initial public offering (IPO) and listing projects of multiple companies throughout the entire process, including Paguld Intelligence (301456), ETA Semiconductor Limited (Terminated), and Yozosoft Inc., Ltd. (Not Filed). He has assisted these enterprises in addressing legal defects, standardizing corporate governance, conducting shareholding system reforms, and implementing equity incentive plans.

In the mergers and acquisitions field, Hongxian Shan has acted as seller's counsel in the acquisition of ETA Semiconductor Limited, by SG Micro Corp (300661). He has also acted as buyer's counsel in projects such as Paguld Intelligence's acquisition of Qingdao Ruien Precision Machinery Co., Ltd. and ETA Semiconductor Limited's acquisition of Jiaxing Feitong Electronics Technology Co., Ltd.

In equity investment and financing, serving as the on-site lead attorney, Hongxian Shan has participated in legal due diligence for dozens of companies. He also assisted in rectifying relevant legal defects and handling investment and financing matters.

In litigation and arbitration, Hongxian Shan has represented clients in cases including the labor dispute lawsuit between Yozosoft Inc., Ltd. and Shi Jiang, the securities misrepresentation lawsuit between supervisors and Zitian Technology (300280), the arbitration dispute over the legal services agreement between Global Law Office and A company, the lawsuit regarding the change of legal representative between Ling Weijia and Phck Measurement Control Technology Co., Ltd., etc.

Additionally, Hongxian Shan has participated in providing ongoing legal advisory services to companies including JGBR (300421), Paguld Intelligence, and ETA Semiconductor Limited.
